

Interaction Designer at Artez

Location: Toronto

Do you want to spend your waking hours working for a large corporation? Or would you rather apply your proven skills to accelerating the evolution of a multi-channel (web/ mobile/social) solution that supports hundreds of top charities - on three continents? Artez is a fast-growing, downtown Toronto-based company that is looking to further expand its talented team.

The Team: We choose top talent who will thrive in our culture of freedom, responsibility, innovation and self discipline. There are 55 of us located in Toronto, Boston and Melbourne Australia. We've been at this for more than a decade, and we love what we do. We've already built one of the world's top online fundraising solutions, and we're committed to increase our lead in global social network and mobile fundraising solutions.

Where we work: Our office is in the vibrant Queen & Spadina neighborhood and is TTC accessible. We work in an open-concept loft space, located in a historic eco-building with a bio-wall and sun-drenched rooftop garden (some days, anyway) - check out www.robertsonbuilding.com . We are family-friendly and reasonably flexible regarding work hours. We promote diversity and have built the right environment for people to manage and balance their work/life demands.

Interaction Designer Position: Some duties and responsibilities include, but not limited to:

- Donors and volunteer fundraisers raise money for causes they care deeply about using our Friendship Powered Fundraising platform.
- Our clients design and execute fundraising programs using our Friendship Powered Fundraising platform.
- We are looking for a full time Interaction Designer to help define the interaction and usability for our donors, fundraisers and clients and our fundraising platform.

The ideal candidate would have the following experience and characteristics:

- Some working experience, preferably in a consumer web setting.

215 Spadina Avenue, Suite 500 Toronto, Ontario M5T 2C7

phone 416.815.8777 fax 416.815.1321

- Work experience can be full time, summer employment or a co-op position.
- Hands-on experience with design tools like Adobe CS5
- An understanding of web technologies such as HTML 5 and CSS is required.
- Attention to detail
- Strong communication skills
- Only candidates with a completed post secondary education in an accredited institution with a degree in a related discipline to the position will be considered
- Design great things, do good work, do good and build yourself a Friendship Powered career at Artez.

If you want to move fast, create great user experiences, and work on a solution that raises millions of dollars for the causes that matter most, then we should talk.
