

## **Junior Developer at Artez**

**Location:** Toronto

Do you want to spend your waking hours working for a large corporation? Or would you rather apply your proven skills to accelerating the evolution of a multi-channel (web/ mobile/social) solution that supports hundreds of top charities - on three continents? Artez is a fast-growing, downtown Toronto-based company that is looking to further expand its talented team.

**The Team:** We choose top talent who will thrive in our culture of freedom, responsibility, innovation and self discipline. There are 55 of us located in Toronto, Boston and Melbourne Australia. We've been at this for more than a decade, and we love what we do. We've already built one of the world's top online fundraising solutions, and we're committed to increase our lead in global social network and mobile fundraising solutions.

**Where we work:** Our office is in the vibrant Queen & Spadina neighborhood and is TTC accessible. We work in an open-concept loft space, located in a historic eco-building with a bio-wall and sun-drenched rooftop garden (some days, anyway) - check out [www.robertsonbuilding.com](http://www.robertsonbuilding.com) . We are family-friendly and reasonably flexible regarding work hours. We promote diversity and have built the right environment for people to manage and balance their work/life demands.

### **Some duties and responsibilities include, but not limited to:**

- .NET programming projects, relating to the enhancement and new functionalities of the Artez Solution, as assigned
- Reproduce and resolve issues
- Documentation
- Investigate and correct software bugs and deficiencies based on the testing results
- New feature development

215 Spadina Avenue, Suite 500 Toronto, Ontario M5T 2C7

**The ideal candidate would have the following experience and characteristics:**

- 1-2 years experience with .NET applications with both front- and back-end development (C#, JavaScript, MS SQL Server, HTML, CSS, XML).
- Computer Science / Engineering degree or equivalent experience.
- Willingness to learn -- we are always looking to add new technologies to our product, and we need someone who likes to play around with Facebook, Twitter, and other various web API's.
- Familiarity with source control systems
- Attention to detail
- Strong communication skills
- Mobile development, Facebook API experience and an eye for design and user experience is a plus

If you want to move fast, create great user experiences, and work for a company that provides a solution that raises hundreds of millions of dollars for the causes that matter most, then we should talk.
