

Network Engineer at Artez

Location: Toronto

Do you want to spend your waking hours working for a large corporation? Or would you rather apply your proven skills to accelerating the evolution of a multi-channel (web/ mobile/social) solution that supports hundreds of top charities - on three continents? Artez is a fast-growing, downtown Toronto-based company that is looking to further expand its talented team.

The Team: We choose top talent who will thrive in our culture of freedom, responsibility, innovation and self discipline. There are 55 of us located in Toronto, Boston and Melbourne Australia. We've been at this for more than a decade, and we love what we do. We've already built one of the world's top online fundraising solutions, and we're committed to increase our lead in global social network and mobile fundraising solutions.

Where we work: Our office is in the vibrant Queen & Spadina neighborhood and is TTC accessible. We work in an open-concept loft space, located in a historic eco-building with a bio-wall and sun-drenched rooftop garden (some days, anyway) - check out www.robertsonbuilding.com . We are family-friendly and reasonably flexible regarding work hours. We promote diversity and have built the right environment for people to manage and balance their work/life demands.

Network Engineer Position: Some duties and responsibilities include, but not limited to:

- We have an immediate need for a talented junior network engineer who will employ their 2 plus years of IT experience to make the world a better place and to support Friendship Powered Fundraising in Canada, the US, the UK and Australia.
- If technology is your passion and having the opportunity to evolve tomorrow's internet technology today excites you, Artez is the place for you.

The ideal candidate would have the following experience and characteristics:

- Cisco and Microsoft Certified Engineer
